VOLLEYBALL FEDERATION OF INDIA
AD-HOC COMMITTEE

L.N: Ad-hoc committee/volleyball/2025 - 494   19 April, 2025

REQUEST FOR PROPOSAL (RFP)

Technical Services Requirements (TSR)
Volleyball Discipline – Khelo India Youth Games (KIYG) 2025, Bihar
Venue: Single Court (1 Field of Play)
Duration: 5 Days (4th May – 8th May 2025)

The Adhoc Committee of Volleyball Federation of India invites proposals from experienced service providers for delivering Technical Services for Volleyball at KIYG 2025, Bihar. The services must cover the following scope to ensure the smooth and professional conduct of matches in alignment with international standards.

Scope of Work
1. Time, Display, and Result Management Services

- Deployment of a trained professional team experienced with volleyball scoring systems and FIVB rules.
- Operation and management of real-time scoring, match display, and results.

2. Broadcast Integration

- Seamless integration with TV and social media broadcast systems.
- Real-time data sharing including:
    - Match time clock
    - Team and player details
    - Timeouts and substitutions
    - Live scores and final results

3. Games Management System (GMS) Integration

- Full integration with the Khelo India GMS platform.
- Capability to:
    - Receive athlete and event data in XML, JSON, or ODF formats
    - Send real-time game data, fixtures, scores, results, and statistics in the same formats

4. System with Auto Backup

- Ensure uninterrupted operation through automatic data backup.
- Ability to customize scoreboard content as needed.

5. Volleyball Controllers

- Controllers must support both Ethernet and Wi-Fi connectivity to interface with third-party servers.

6. Service Indicators

- Clear display of service indicators on the scoreboard with distinct color coding.

7. Match Time Display

- Scalable digit height ensuring clear visibility across the playing arena.

8. Team Name Display

- Capability to show team names along with colored team logos or flags.

9. Player Name Display

- Real-time display of athlete numbers and names during matches.

10. Substitution Display

- Visibility of all substitutions made during the session for each team.

11. Timeout Display

- Display of timeouts availed by each team in the ongoing session.

12. Court Management Server

- Central server for syncing match data with scoring software.
- Ability to manage and report data across one or multiple courts.
- Generate printable team score reports.

13. Data Exchange Support

- Open standard data exchange compatibility with GMS and broadcast systems (XML, JSON, ODF formats).

14. Display Screens

- Minimum screen size: 8 ft (height) x 12 ft (width)
- Must include all necessary accessories and cabling.

15. Integrated Beeping System

- Compliant beeping system for signaling end-of-set, substitutions, and timeouts per official regulations.

Proposal Submission Details

Interested vendors are requested to submit detailed proposals including:

- Technical approach
- Past experience with similar events
- Timeline and deployment plan
- Commercial quotation
- Team profile and support plan

Proposals must be submitted by **April 24, 2025 , 17:00 hrs** to the following contact:
