To,
The President / Secretary General
National Sports Federation

Re.: IOC – Educational Programmes

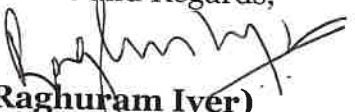

Dear Colleagues,

The Indian Olympic Association (IOA) is pleased to announce a series of valuable online programmes offered by **Sports Oracle** in collaboration with the International Olympic Committee (IOC). These programmes are specifically designed to improve the knowledge and practical skills of professionals who work directly with athletes.

The offerings include various certificates and diploma courses tailored for individuals such as doctors, physiotherapists, mental health experts, nutritionists, safeguarding officers, and other professionals. For detailed information about the full module structure, faculty, curriculum, and learning outcomes, please visit the Sports Oracle website at www.sportsoracle.com (<https://www.sportsoracle.com>).

Please note that Olympic Solidarity provides a limited number of scholarships (one per course) to candidates endorsed by their National Olympic Committees. To apply for scholarships, we request that the NSFs send nominations of eligible candidates along with a copy of the confirmation email the candidate received from the Sports Oracle after applying. IOA will be proposing one meritorious candidate for a scholarship in each course.

Thanks and Regards,

(Raghuram Iyer)
Chief Executive Officer
